## **NOTICE: CenterPoint Energy to upgrade natural gas system in your neighborhood in Dec. 2018**

December 3, 2018

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy's authorized contractor, Michels Corporation, will be replacing a natural gas main and connecting natural gas service lines to the installed main along the east side of Portland Ave. S. between E. 56th St. and E. 60th St. The work will begin on Monday, December 10; continue through the end of December 2018 or January 2019; and resume in April 2019. Crews from Q3 Contracting, an authorized CenterPoint Energy contractor, will temporarily restore the hard and soft surfaces affected by Michels Corporation's construction. Q3 Contracting will return in the spring and summer 2019 construction season to permanently restore these areas. Lane restrictions will be anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. Two-way traffic will be maintained. To learn more or to sign up for weekly construction updates, please visit our Construction Zone website at [CenterPointEnergy.com/Construction](http://CenterPointEnergy.com/Construction).

This project is in preparation for CenterPoint Energy's Minneapolis 2019 Belt Line Project, which is a continuation of CenterPoint Energy's Belt Line Project in Minnesota. The entire Belt Line Project began in 2012 and will continue until approximately 2022. The Belt Line system is a series of natural gas distribution mains along routes from Brooklyn Center to Bloomington and from Golden Valley to Minneapolis.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](http://CenterPointEnergy.com/BeSafe).
