NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood May 13 – mid-June 2019

May 10, 2019

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

From the week of May 13 into mid-June 2019, CenterPoint Energy's authorized contractor, Michels Corporation, will be replacing natural gas mains and connecting natural gas service lines to the installed mains in New Prague along 7th Street NE at Pershing Avenue N., Forest Green Circle, Lexington Avenue N. and Main Street E. Along Philipp Parkway, Forest Green Circle, Lexington Avenue N. and Bohemia Street, the crews will be replacing meters and regulators. See our construction map, featured on the opposite page, for the highlighted streets where active construction will occur.

As part of this main project, the crews will be replacing several natural gas service lines that connect from the main to the customer's property. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. If a customer's property is disturbed, CNP will restore the hard and soft surfaces affected by construction at no cost to you. In addition to the natural gas service line installation, some customers may also have their inside gas meters moved to the outside of their homes as part of CenterPoint Energy's long-term improvement project called "Moving Gas Meters Outside."

Lane restrictions will be anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. If any closures are necessary, they will be minimized. Local access will be maintained. CenterPoint Energy's authorized contractor, Q3 Contracting, will restore the areas affected by Michels Corporation's construction—typically the boulevard, lawn, sidewalk and road.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. **Please reference the New Prague - 7th Street NE project or number 88378145.** We appreciate your business and look forward to continuing to serve you.
