NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood June 17 – early August 2019

*Text-to-subscribe for updates regarding this construction project by sending **CNP HOOVER** to 468311*

- CenterPoint Energy will be replacing an existing natural gas distribution main with modern materials in North Mankato from the week of June 17 to early August 2019.
- Project construction will occur along Lee Blvd., Hoover Dr., Roe Crest Dr. and north of Hoover Elementary School between Regency Ct. and Clare Dr. Work will occur in segments rather than all at once.
- Lane restrictions and road closures are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe.
- Since the crews will be open-trenching the natural gas main, they will be closing sections of the affected roads at a time to through traffic. Residents and businesses can access their properties.
- **For more information or to sign up for updates, please visit CenterPoint Energy's Construction Zone website at CenterPointEnergy.com/Construction.**

NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood June 17 – early August 2019

June 10, 2019

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy will be replacing an existing natural gas distribution main with modern materials in North Mankato from the week of June 17 to early August 2019. Project construction will occur along Lee Blvd. between Tower Blvd. and Hoover Dr.; Hoover Dr. between Lee Blvd. and Regency Ct.; north of the Hoover Elementary School between Regency Ct. and Clare Dr.; and Roe Crest Dr. between Clare Dr. and just north of Marie Ln. Work will occur in segments rather than all at once.

Construction will happen in two phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates.

Lane restrictions will be anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. Since the crews will be open-trenching the natural gas main, they will be closing sections of the affected roads at a time to through traffic. Residents and businesses can access their properties. Parking and pedestrian traffic will be prohibited in full closure areas. Detour signs will be on site. To sign up for construction updates, please visit our website at CenterPointEnergy.com/Construction.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact one of the following CenterPoint Energy resources:

- Communications Specialist, Hannah Gullickson, at 612-321-5546
- Information Hotline at csv.constructionservices@centerpointenergy.com or 612-321-5369
- Restoration Questions at csv.restoration@centerpointenergy.com or 612-321-5042

Please reference the Hoover Elementary School Neighborhood project or number 89350144. We appreciate your business and look forward to continuing to serve you.
