NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood July 1 – late Fall 2019

June 17, 2019

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy will be replacing the natural gas system in coordination with the City of Richfield's "[Accelerated Mill and Overlay Program](#)" project. CenterPoint Energy's project construction is expected to begin in the week of July 1 and end in late Fall 2019. Michels Corporation, an authorized CenterPoint Energy contractor, will install natural gas mains, connect natural gas service lines to the installed mains, and move any inside residential meters to the outside of homes. Construction will occur along selected streets between Penn and Portland Avenues S. and between Highway 62 and W. 70th Street. Parking and lane restrictions are required in areas where construction activity is occurring and are necessary to keep both the public and construction personnel safe. Local access will be maintained.

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates. To learn more about this project or to sign up for construction updates, please visit our Construction Zone website at CenterPointEnergy.com/Construction.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact one of the following CenterPoint Energy resources:

- Communication Specialist, Hannah Gullickson, at 612-321-5546
- Information Hotline at 612-321-5369 or csv.constructionservices@centerpointenergy.com
- Restoration Department at csv.restoration@centerpointenergy.com
