NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood Oct. 1 – approx. Nov. 23, 2018

September 10, 2018

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy will begin replacing the natural gas system in Minneapolis on Monday, October 1. Project construction is expected to last into the week of November 19, 2018, and the affected areas are featured on the reverse side of the page. Michels Corporation, an authorized CenterPoint Energy contractor, will replace the natural gas mains along the southern side of 2nd Avenue N. between 2nd Street N. and 4th Street N. There will be partial traffic impacts intermittently throughout the project, rather than all at once. Parking and lane restrictions are required in areas where construction activity is occurring and is necessary to keep both the public and construction personnel safe. To learn more about this project or sign up for weekly construction updates, please visit our Construction Zone website at CenterPointEnergy.com/Construction.

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe.
