NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood approx. Sept. 19 – Nov. 30, 2016

September 12, 2016

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Crews from Michels Corporation, an authorized contractor for CenterPoint Energy, will begin construction on the new natural gas pipe along Main Street NE in Minneapolis about September 19. The construction is expected to last until approximately the end of November 2016. The crews are installing about 2,009 feet of natural gas distribution main along Main Street NE from 5th Avenue NE to 9th Avenue NE, as well as 7th Avenue NE. (See map for detail.) CenterPoint Energy will be closing one or more blocks at a time on the southbound lane along Main Street NE, as well as affected intersections. Detour routes will be provided along Marshall Street NE, 8th Avenue NE and 6th Avenue NE. Residents along Main Street NE will be given access to and from their homes during construction.

Existing gas service lines will be connected to the gas main. (A gas service line is a small pipe connecting the resident's gas to the main line in the street.) Customers will experience a short disruption of gas service. Crews may have to dig in some residents' properties in the utility easement to achieve this task. If a resident's property is disturbed, CenterPoint Energy will be responsible for restoring the hard and soft surfaces affected by construction. This is at no cost to the customer or resident of the construction area.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas and how to use it safely and efficiently. CenterPoint Energy provides information for you at CenterPointEnergy.com/BeSafe.

To learn more about this project or to sign up for periodic construction updates, please visit our Construction Zone website at: CenterPointEnergy.com/Construction. In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline at 612-321-5369 or our Communications Specialist, Hannah Gullickson, at 612-321-5546. Please reference the Main Street NE construction project or number 75151660 when calling the Information Hotline.

We appreciate your business and look forward to continuing to serve you.
