## **NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood in approx. November 7 - 18, 2016**

October 31, 2016

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities. As a system upgrade project, CenterPoint Energy will be installing 500 feet of natural gas distribution pipe near the intersection of Barry Avenue S. and E. Rice Street. (See map for detail.) Construction is expected to begin the week of November 7, 2016, and will require approximately two weeks to complete the work. We will restore the areas affected by our construction in compliance with all applicable federal, state and local regulations.

There will be total lane closures on northbound and southbound Barry Avenue S. Residents at Grace Pointe Court and Wayzata Boulevard will still have access to their homes. The crews may also close the sidewalk along the west side of Barry Avenue S. between E. Wayzata Boulevard and E. Rice Street intermittently during project. If so, the crews will detour the sidewalk to the east side of Barry Avenue S. The work will also include the replacement of approximately two natural gas service lines. Representatives from CenterPoint Energy will contact residents whose gas service may be affected to schedule the necessary construction work on their property. In addition, your gas meter will be evaluated and replaced if necessary. If the gas meter is located inside your home or building, we will move it to an outside location.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 140 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas and how to use it safely and efficiently. CenterPoint Energy provides information for you to learn how to be safe around natural gas pipelines at [CenterPointEnergy.com/BeSafe](http://CenterPointEnergy.com/BeSafe).

**To learn more about this project or to sign up for periodic construction updates, please visit our Construction Zone website at [CenterPointEnergy.com/Construction](http://CenterPointEnergy.com/Construction). In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline at 612-321-5369 or our Communications Specialist, Hannah Gullickson, at 612-321-5546. Please reference the Barry Avenue S. and E. Rice Street construction project or numbers 78918752 and 78918465 when calling the Information Hotline.**

We appreciate your business and look forward to continuing to serve you.
