NOTICE: CenterPoint Energy to Upgrade Natural Gas Pipelines in Your Neighborhood April 2015

March 25th, 2015

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

In preparation for a city of Golden Valley's Douglas Drive reconstruction project, Michels Corporation, an authorized CenterPoint Energy contractor, will be installing 1 mile of 8-inch plastic pipe and 1,000 feet of 24-inch steel pipe along Douglas Drive, from Medicine Lake Road and crossing Golden Valley Road (see map for detail). Construction is expected to begin in April 2015 and will be completed by July of 2015. We will restore the areas affected by our construction in compliance with all applicable federal, state and local regulations.

The work will also include the replacement of approximately 50 natural gas service lines. Representatives from CenterPoint Energy will contact residents whose gas service may be affected to schedule the necessary construction work on their property. In addition, your gas meter will be evaluated and replaced if necessary. If the gas meter is located inside your home or building, we will move it to an outside location.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 140 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas and how to use it safely and efficiently. CenterPoint Energy provides information for you to learn how to be safe around natural gas pipelines at www.centerpointenergy.com/besafe.

To learn more about this project or to sign up for periodic construction updates, please visit our Construction Zone website at: www.centerpointenergy.com/construction. In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline: 612-321-5329 or our Communications Specialist, Ashley Osteraas: 612-321-5546. Please reference the project Douglas Drive or number 72157012 when calling the Information Hotline.

We appreciate your business and look forward to continuing to serve you.
