NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood September 11 – late October 2017

September 13, 2017

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities. Crews from CenterPoint Energy will begin replacing an existing natural gas pipeline in Minneapolis the week of September 11, 2017. Project construction is expected to last up to seven weeks. Michels Corporation, an authorized CenterPoint Energy contractor, will begin installing natural gas mains along the following streets: (see map on the opposite page):

- 22nd Avenue NE between Stinson Parkway and Wilson Street NE
- Stinson Parkway between 22nd Avenue NE and 23rd Avenue NE
- Roosevelt Street NE between 22nd Avenue NE and 23rd Avenue NE
- Taft Street NE between 22nd Avenue NE and 23rd Avenue NE
- Wilson Street NE between 22nd Avenue NE and 23rd Avenue NE

Parking and lane restrictions are required in areas where construction activity is occurring and is necessary to keep both the public and construction personnel safe. Project updates, detailing progress and affected areas will be available at CenterPoint Energy's website at

CenterPointEnergy.com/Construction.

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates. To learn more about this project or to sign up for weekly construction updates, please visit our Construction Zone website at

CenterPointEnergy.com/Construction.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline at 612-321-5369 or our Communications Specialist, Hannah Gullickson, at 612-321-5546. **Please reference the 22nd Avenue NE & Stinson Parkway NE construction project or number 73022820 when calling the Information Hotline.** We appreciate your business and look forward to continuing to serve you.
