NOTICE: CenterPoint Energy to begin upgrading natural gas pipelines in your neighborhood the week of September 21, 2015

September 11, 2015

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

As a system upgrade project, Michels Corporation, an authorized CenterPoint Energy contractor, will be replacing approximately 1,145 feet of 16-inch and 20-inch steel pipe with 2,300 feet of 2-inch plastic pipe and 16-inch steel pipe along Irving Avenue S., from 34th Street W. to 32nd Street W (see map for detail). **Please anticipate a full road closure of Irving Avenue S. for one and a half months. Traffic will be open to local residents only to access driveways.** Construction is expected to begin the week of September 21, 2015 and will require two months to complete the work. We will restore the areas affected by our construction in compliance with all applicable federal, state and local regulations.

The work will also include the replacement of approximately 50 natural gas service lines. Representatives from CenterPoint Energy will contact residents whose gas service may be affected to schedule the necessary construction work on their property. In addition, your gas meter will be evaluated and replaced if necessary. If the gas meter is located inside your home or building, we will move it to an outside location.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 140 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas and how to use it safely and efficiently. CenterPoint Energy provides information for you to learn how to be safe around natural gas pipelines at www.CenterPointEnergy.com/BeSafe.

To learn more about this project or to sign up for periodic construction updates, please visit our Construction Zone website at: www.CenterPointEnergy.com/Construction. In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline: 612-321-5369 or our Communications Specialist, Ashley Oстераas: 612-321-5546. Please reference the Irving Avenue S. project or number 67958425.

We appreciate your business and look forward to continuing to serve you.
