

**SUBJECT: CNP-M-A062423-01 CenterPoint Energy – Deployment of Temporary Emergency Electric Energy Facilities (TEEEF) - Initial**

**NOTICE DATE:** June 24, 2023

**NOTICE TYPE:** CNP-M-A062423-01 – Initial

**SHORT DESCRIPTION:** CenterPoint Energy has deployed two temporary emergency electric energy facilities to assist with this week's storm restoration efforts.

**INTENDED AUDIENCE:** Retail Electric Providers

**LONG DESCRIPTION:** CenterPoint Energy has deployed temporary emergency electric energy facilities (TEEEF) to the Northwest portion of the Houston Electric territory as part of our restoration efforts to safely and efficiently restore electric service to our customers following Wednesday's severe weather event. As we work to restore those customers, as well as an additional approximately 3,500 customers without power due to last night's strong storm, these facilities will lessen customer impact in this area.

- There are various factors that help determine where, when and how we can deploy the temporary generation. They include system integrity, infrastructure repair status and safety considerations.
- The temporary emergency electric energy facilities were activated on June 24, 2023 and will remain in place until further notice.
- The capability of procuring and deploying temporary emergency electric energy facilities was approved in 2021 by the Texas legislature following Winter Storm Uri.

In conjunction with this activation adjustments to affected retail customer usage reported for billing purposes by Retail Electric Providers will be made to the extent reasonably possible.

A list of ESIIDs associated with this activation along with additional details surrounding billing adjustments will be provided to Retail Electric Providers once that information is available.

CenterPoint Energy will host a **Market Call at 2:30 P.M. on Monday June 26<sup>th</sup>** to provide further details on the process for billing adjustments for the ESI-IDs involved in this TEEEF deployment. An invitation for this market call will be sent in a separate market notice.

**ADDITIONAL INFORMATION:** Additional information regarding this TEEEF deployment will be provided via market notice and market calls.

**CONTACT:** If you have any questions regarding this notification, please send an email to [cr.support@centerpointenergy.com](mailto:cr.support@centerpointenergy.com)
