***Natural gas is simply better***

When you choose natural gas equipment for your business, you are making a smart decision for greater cost-savings, comfort and the environment.

**Savings and comfort**

Natural gas is an abundant fuel that costs about half as much as other fuels, making it the best choice for your budget. And, according to America's Natural Gas Alliance, there is more than a 100-year supply of natural gas in the United States, much of which can be attributed to supply from shale gas fields.

With reliable natural gas service, there's no need to worry about surprise power outages that may create disruptions. Natural gas equipment is available for nearly every application with a wide range of benefits.

**Environment**

Natural gas is the right choice for a cleaner tomorrow. As a primary fuel that can be used in its natural state rather than undergoing a pollution-producing, energy-wasting conversion process, natural gas is a cleaner burning fuel that leaves about half the carbon footprint compared to electricity.
